PROJECTS:

FOOD FUSION:

[GITHUB](#) | [LIVE URL](#)

- Implemented secure user registration and login.
- Users can CRUD their recipes for a personalized experience.
- Created an admin dashboard to oversee user accounts, recipe categories, and website settings.
- Built a strong Express.js and Node.js API for user authentication, recipe management, and admin controls.
- Used MongoDB Atlas for scalable data storage, enabling access to a diverse recipe collection, enhancing the website's appeal to cooking enthusiasts.
- Developed a user-friendly React front-end with Redux for smooth data flow, enabling recipe browsing and profile management.
- Ensured responsive design for accessibility across desktops, tablets, and mobile devices.

REACT E-COMMERCE STORE:

[GITHUB](#) | [LIVE URL](#)

- Integrated a responsive design to create an intuitive and visually appealing user interface that adapts to various devices.
- Implemented cart functionality for enhancing the shopping experience.
- Integrated Firebase authentication for user registration and login CRUD operations.
- Styled the application providing a consistent and polished look across the entire application.

QUIZ APPLICATION:

[GITHUB](#) | [LIVE URL](#)

- Developed Quiz App, an interactive quiz application, real-time feedback and a dynamic visual progress bar for users.
- Successfully implemented user registration and login functionalities.
- Empowered users with personalized profile pages.
- Designed a user-friendly interface that provides real-time feedback

I've completed numerous projects like this using HTML, CSS, and Javascript, and I've uploaded the source code on GitHub.

DECLARATION:

I solemnly declare that the information in this resume is true to the best of my knowledge and belief.
